

## AAR 50 ton Freight Truck

**Reference Instructions Sheet** 

100

These instructions call for the use of non LEGO® brand parts.

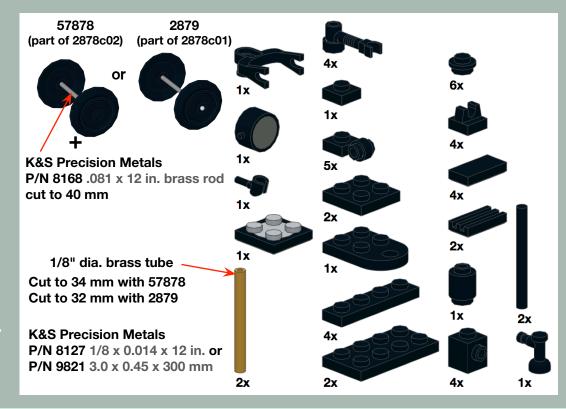

## Parts List

## **Notes**

Both varieties of train wheels can be used.
Newer variety (2878c02) requires substitute brass rod axle cut to 40 mm.

These instructions require two 1/8 in. (3.18 mm) diameter brass tubes cut to 32/34 mm long. Tubes should be deburred with a file after cutting.

## **Custom LEGO® set instructions**
